Spaceflight

Volume III
1961

Editor: KENNETH W. GATLAND, F.R.A.S.

Editorial Board: M. F. Allward, C. A. Cross, D. Hurden, A. E. Slater

Published by the British Interplanetary Society

Subject Index

Apollo, Project, 19, 76, 77, 154.
Astronautics in Japan, 121.
Astronautics in School (A. J. Moore), 182.
Astronautics in Stockholm, 16, 17.
Astronaut Training (R. B. Voas), 155.

Back from Orbit, 22.
Big Booster, The, 150.
Black Knight, 2, 33, 57, 65.
Blue Streak, 2, 33, 57, 65, 191.
British Communication Satellite (Hawker Siddeley Aviation), 2, 124.
B.I.S., 164, 169.
B.I.S. at Biggin, 68.
B.I.S. Spaceship, 167.
British Participation in Space Research (E. G. D. Andrews), 57.
British Space Consortium, A, 125.

Canadian Sounding Rockets, 179.
Coelostat, 164.
Communications Satellite, 124.
Congress Diary (D. Gatland), 18.

Designing for Man in Space (R. P. Haviland), 81.
Designing the Vostok, 158.
Do-it-yourself, 80.
Dyna-Soar, 24.

Echo and Solar Storms, 129.
Electrical Rocket Propulsion, 111.
Engineering Aspects of Solid Propellent Motors, 198.
Entente Spatiale, 124.
European Co-operation in Space (K. W. Gatland), 5.
European Space Research Organization, 1.
Exploring Venus by Radar, 180.

First Man in Orbit, 131.
From Airlines to Spacelines (R. C. Truax), 173.

Gagarin, 113, 131, 153, 158, 204.
Gamma, 32, 60, 61.
Glasgow Moonwatch System, The, (A. E. Roy), 53.

High-Energy Chemical Propellents (F. Fitzgerald),199.

International Academy of Astronautics, The, (A. G. Haley), 119.
International Congress of Astronautics, The Eleventh, 16, 17.

Liquid Propellent Motors (W. N. Neat), 193.

Mariner, 73.
Mercury, 75, 153, 154.
Meteorological Rocket Exhibits, 130.
Minitrack in Britain, 122.
Missile "Drag" Balloon, 112.
Mission to Venus, 114.
Moon, Craters of the (J. W. Macvey), 13.
—— New Look at the (H. E. Ross), 78.
—— Possible Operations on the (F. Zwicky), 177.
—— Surface Exploration of the (P. A. E. Stewart), 34.
—— Unchanging? (J. W. Macvey), 210.
Moonwatch in the United Kingdom (L. J. Carter), 49.
MOUSE project, 171.

N.A.S.A., 19, 26, 70, 157.
—— looks ahead (M. J. Stoller), 70.
New Radio Telescope, 188.
Nimbus, 74, 75.
Nothing on Earth (M. Vertregt), 145.

Orbiting Astronomical Observatory, 72, 73.
Orbiting Geophysical Observatory, 72, 73.
Orbiting Solar Observatory, 71, 73.

Pioneering Manned Flight into Space, A (G. M. Low), 154.
Post-war Contribution of the B.I.S., The, (A. V. Cleaver), 169.
Pre-war Contribution of the B.I.S., The, (H. E. Ross), 164.
Probing eye, The, (H. C. King), 135.
Prospector, 74.

Questions of Space Law (J. C. Cooper), 95.

Ranger, 73, 74, 130.
Reconnaissance Satellites (G. P. Coates), 100.
Rocket Reliability (J. P. Kuettner), 157.
Rolls-Royce RZ2, 60.
Russia's Space Plans, 172.
Russia's Space Stamps (D. Malcolm), 126

Satellites: Discoverer XIII, 22.
Discoverer XIV, 22.
Echo I, 25, 75, 129.
Explorer VII, 71.
Sputnik III, 81.
Sputnik V, 9.
Sputnik VI, 1.
Tiros I, 74, 75.
Tiros II, 101.
Venus probe, 69, 114.
Vostok I, 158.
Saturn Launch Complex, 34, 213.
Saturn, The, 19, 125, 150, 213.
Scout I, 172.
Shepard, Cdr. Alan, 154.
Sit-me-Down Spacesuit, 151.
Sixty-six days on Algae, 86.
Smith/Ross rocket, 169.
Solar Sunflower, 12.
Some Legal Problems of Space Travel (J. M. Smail), 206.
Spaceflight exhibition, 12.
Space research in Argentina, 23.
Stentor, 32.
Super Echo, A, 212.
Superior Galactic Communities (M. H. Briggs), 109.
Surveyor, 70, 85.

Ten Year Programme of Space Technology, A (L. R. Shepherd), 190.
Terminology (R. G. Cruddace), 219.
Titov, 189.

U.S. Space Programme, The (D. R. Ostrander), 26.

Venus, 180.
Venus probe, 69, 114.
Voyager, 74.

"With Gagarin to the Stars," 204.

X-15, 113.
